CT.Uni Final Conference: Creative Learning Explored: Recommendations and Practice

ECOTECH-COMPLEX
ul. Głęboka 39, 20-612 Lublin, Poland
January 28, 2025
9:00 am- 2:30 pm (CET)

The aim of the *CT.Uni: Creative Thinking - Taking an Innovative and STEAM Approach for a Transdisciplinary University* project (2022-2025) was to foster a transnational and transdisciplinary exchange of experiences within the consortium, aimed at supporting students, research and teaching staff, and university managers in developing the ability to think creatively, critically, and outside the box, as well as strengthening cooperation with external institutions as key partners of a modern university.

During the **final conference**:

- We will share the **results of our work** in the *CT.Uni* project.
- We will present both the theoretical and **practical aspects of creative teaching**.
- We will invite **discussions** on topics such as critical thinking and teaching when working with students, the importance of creativity and communication, the potential for cooperation with the external environment, adequate support for teachers, and the future of education.
- We will provide an opportunity for participants to get to know each other better during a **joint lunch**.

Participation in the conference is **free**, but **registration via the form is required**: <https://forms.office.com/e/Ay20Vd1T0k>. We hope to gather the widest possible **international audience**, so the conference will be held in **English**. Both **onsite and online participation** is allowed (a link to the meeting will be sent to registered participants).

CT.Uni: Creative Thinking – Taking an Innovative and STEAM Approach for a Transdisciplinary University.
